

# AppFlowy v0.11.0: Sovereign Intelligence

Bring projects, wikis, and teams together without losing control of your data.

THE AI WORKSPACE FOR THE PRIVACY-CONSCIOUS

# The New Standard for Secure Productivity

Productivity tools usually demand a compromise: trade your data privacy for AI features, or stay offline and lose efficiency. AppFlowy v0.11.0 eliminates the trade-off.

## Collaborative AI

Unblock work and generate insights using the world's best models.

## Total Sovereignty

100% offline mode, self-hosting capabilities, and local LLM support.

## AppFlowy Mobile

A seamless transition from desktop to iOS and Android.

# Your Go-To Teammate.

Eliminate blank page syndrome. Ask AppFlowy AI to unblock your work, find answers within your existing docs, and generate inspiration without ever switching contexts.

- **Contextual:** Get intelligent insights and generate takeaways across different pages.
- **Generative:** Improve writing and brainstorm ideas instantly.
- **Actionable:** Extract action items from meeting notes automatically.

# Model Agnosticism: Choose Your Brain.

Access the bleeding edge of proprietary models when you need raw power, or switch to local processing when data sensitivity is paramount. The choice is yours, per task, per project.
